

*“Lots of practical and useful information presented in easy to understand terms.” - Carol*

*“Honestly this was the most informative chicken course I have taken. I really wish this was mandatory for anyone urban or rural to take before purchasing chicks or chickens. I shared it with many groups on social media to help get the word out.” - Christy*

*“It was a wonderful intro to chickens course. It took away any questions I had and has given me the confidence to dive into having my own little flock.” - Amanda*

## ABOUT THE COURSE

Learn about choosing the right breed of chicken for your small flock, building or buying a coop, planning to over-winter your birds, chicken anatomy & egg laying, feeds & feeding, biosecurity practices, how to recognize and treat common poultry disease and more! Listen and learn from our world-class experts.

## RESOURCES GALORE

The learning doesn't end when the course is over. You'll receive a huge list of resources that reinforce what you've learned, and help you dig deeper into the poultry care topics that interest you! [Register](#)  
\$56.76 for the course, slides and recordings  
\$67.90 for the course, slides, recordings, and Small Flock E-Resource
